

PRINTMAKING WORKSHOP IN THE BAHAMAS!

Exploring Monotype in the Exumas.

Staniel Cay Art Workshops, Staniel Cay, Exumas, Bahamas.

A new way to explore...

About the class:

Introductory to advanced level instruction in the printmaking medium of Monotype. Class size is limited to only six artists to ensure one-on-one time with instructor for development of learned skills and imagery.

Various techniques will be explored; including traditional monotype processes, viscosity- ghost image printing and chine colle using non-toxic printing inks. This class is ideal for someone wishing to explore the medium of monotype printmaking in a breathtaking and temperate landscape. Staniel Cay is the perfect island setting to be inspired and create. The naturally contrasting colors of the dark coral shoreline and aqua waters partnered with the laid back culture of the islands will culminate in a portfolio of prints and a group show at the Staniel Cay Yacht Club. Our studio will be at a long time resident / local artist's private, open-air, waterfront residence. We're pleased to offer this class with decades of travel and printmaking experience; this is truly a unique opportunity to print in the Bahamas.

About the instructor:

Lori Warner is considered a master printer in monotype. She specializes in unique woven monotype prints and encaustic paintings. Her work is luminous due to many layers of paper, ink and wax which often reveal forms referencing a specific person or landscape. Ms. Warner is a graduate of Rhode Island School of Design where she received highest honours and the award for Excellence in Printmaking. She is the

owner of Lori Warner Studio / Gallery in Chester, CT. Recent honours include, Best of Show, Boston Historical Parks Annual Exhibition, Second Place, 66th Annual Connecticut Artists Exhibition at the Slater Museum. Solo exhibitions include Soprafina Gallery, Boston, Chester Gallery and Westport Arts Center, Connecticut, and internationally juried group exhibitions in Hawaii, Michigan, New York and New Jersey. Her work is in the collections of Decordova Museum, Boston Public Library, Boston Atheneum, and Yale, among others. Additional information can be viewed on her website, www.loriwarner.com. Please email or call Lori with questions regarding art and printmaking questions: (860) 322-4265 / lorwarn@mac.com.

About the place:

Staniel Cay is truly like no other place on earth. The island is nestled in the magnificent chain of Bahamian Out Islands called The Exuma Cays (a.k.a. "Exumas") and lies approximately 75 miles southeast of Nassau and 250 miles southeast of

Florida. The island itself is less than 2 square miles in area and with a population of less than eighty full-time residents, Staniel Cay is the ideal place to escape from the cares of the world. The Yacht Club has been entertaining guests since 1956 and introducing them to the unspoiled beauty of secluded beaches, bright blue waters, and friendly people. You will not find more inspiring land and waterscapes anywhere in the world.

About Staniel Cay (continued):

Enjoy a day filled with relaxation, art and taking in the sights and sounds. Unmatched swimming, snorkeling, SCUBA and kayaking in the warm, clear waters will also keep you active. Experience the

flavor of the island itself on foot, bike, or golf cart. The local Bahamians in the nearby village are eager to share their culture and their stories with you. Shopkeepers, boat builders, fishermen and others will gladly tell you of their history and traditions - Staniel Cay is often referred to as "the friendliest little island in the Bahamas." The Yacht Club restaurant has a unique, casual atmosphere and it's renowned Bahamian-American cuisine and island bar will be a highlight of your stay. On a given evening in the clubhouse, hotel guests, visiting yachtsmen, Staniel locals, celebrities, neighboring cay residents, and private pilots all come together to share food, cocktails, experiences and lively conversations. A more unique mix of individuals and characters would be hard to find!

The waterfront cottages are charming and wonderfully comfortable. Both the single cottages and two-level suites are tastefully decorated with a modern, tropical décor and the views will take your breath away as you relax on your balcony, the clearest waters in the world lapping just a few feet below. This small Bahamian Out Island will bring you peace of mind and spirit while you experience this unique artistic endeavor.

*"Art teaches nothing except the
significance of life."*
